

Terry Cram

Please accept this as a show of interest/application to become a part of your organizational Board. I have a bachelor's degree in Wildlife Conservation from the University of Wyoming and served 30 years as a Game Warden with the Wyoming Game and Fish Department; mostly in Sheridan. I retired in 2004 and was elected to the Sheridan County Commission where I still serve.

I've always had a love for wildlife and the habitat so crucial to its survival. I believe wildlife management begins with "people management" because we can have such profound (good or bad) influences on that habitat. I believe as a former wildlife manager and current County Commissioner I have unique advantages that can pay dividends in that regard. History has shown that I've been able to facilitate new land use policies that benefit both people and wildlife through public education and collaboration. I believe Sheridan County's land use plan can be used as an example to others to illustrate how Counties can further the health and future well-being of wildlife species throughout the state.

I'd like to be part of such a process. Thank you.
